

# CAREER TALKS SERIES

**Prof. Dr. Martin Michel**

Dept of Pharmacology  
University Medical Center Mainz

## "Career opportunities in the pharmaceutical industry"

In a non-growing system, each professor by average can only bring one of his/her trainees to the same career level. If a professor has more than 10 PhD students, less than 10% will find a permanent position in academia. Therefore, looking for non-academic career paths is not plan B but plan A. Based on personal experience in a major pharmaceutical company, Prof. Martin Michel will discuss various types of functions within industry and how to qualify for them.

**Wednesday 12 June 2019, 18:00**

Seminar Room, Institute of Molecular Biology (IMB)  
Ackermannweg 4, 55128 Mainz

All are welcome to attend

Do you want to meet Prof. Michel personally after the talk?
